B. Setting up client's exposure limits,

ASE CAPITAL MARKETS LTD.

Delayed payment charges / Charges on Exposure against collaterals:

Pursuant to Exchange Bye-laws, the Member broker is currently required to make pay-in of funds to the Exchange by T+2 morning and arrange delivery of securities to the Exchange latest by T+2 morning. Further Member broker is also required to maintain adequate upfront margins with the Exchange to avail exposure for trading. The Exchanges have also defined the ratios in which the cash and collaterals are to be deposited and maintained by the Member broker. In addition the Exchange requires the member broker to deposit some of the margins like MTM, in Cash only.

In order to manage its working capital, ACML requires fullest cooperation of the clients in meeting their respective obligation towards payin and margins.

ACML may therefore charge a delayed payment penalty, on monthly basis on account of delays/failure by the client in meeting the pay-in obligations on the scheduled date and also where the clients take exposure in F&O segment by depositing collaterals in a ratio which is disproportionate to the Cash versus collaterals ratios prescribed by the Exchanges. While levying delayed payment charges on the debit balance in the running account of a client, ACML may not consider any credit balance in the other family or group account of the client.

Penalties levied by Exchanges:

Further Exchanges levy various penalties on the member brokers on auction resulting from short deliveries, non adherence to client-wise exposure limits, client-wise shortfall in F&O Margin and for other reasons which may be defined by the Exchange from time to time. ACML shall pass on any penalty imposed by the Exchange/SEBI and or any other regulatory authority to the client, which arises on account of the client.

Interest Free Deposits:

ACML provides exposure against the upfront margin received in the form of cash / collateral from the client and the client also has the prerogative to demand withdrawal of cash and collaterals at his discretion, ACML shall not pay any interest or other benefit to the client for maintaining cash balances or depositing collateral margins with ACML.

E. The right to sell clients' securities or close clients' positions, without giving notice to the client, on account of non-payment of client's dues (This shall be limited to the extent of settlement/margin obligation),

ACML through its sub brokers / authorized persons shall have right to sell client's securities, both unpaid securities as well as collaterals deposited towards margins, or close out client's open positions, without giving notice to the client where there is a delay/ failure of the client to meet the pay-in obligations and / or there is a failure of the client to bring additional margins to cover the increase in risk in the dynamic market conditions.

a. Unpaid Securities in Capital Market:

i. In case of unpaid obligation on T+3, ACML may sell the unpaid/ partially paid securities. In addition ACML may through its sub brokers / authorized persons sell the collaterals deposited by the client towards margins and/ or paid securities purchased by the client in earlier settlements where the sale of proceeds of unpaid securities are inadequate to cover the pay-in obligations and/ where the unpaid securities appear to be comparatively illiquid and cannot be sold at reasonable rates to the extent required.

ii. ACML may follow the LIFO method for liquidation of securities but it may not be binding on it to follow this method in all cases.

ASE CAPITAL MARKETS LTD.

b. Margin shortfall in F&O:

- i. Positions of the client may be closed out to the extent of margin shortfall on the T+1 basis.
- ii. While computing margin shortfall, value of unapproved securities shall not be considered.
- iii. As per the current Exchange requirements, the Member Broker is required to maintain a 50:50 ratio between cash and collaterals margin deposited with the Exchange. ACML shall therefore have the prerogative to insist for at least 50% of margin in cash and may not consider the value of securities over and above the cash component for the purpose of calculating margins shortfall and close the F&O position where it finds the deviation. However, sales made in capital market segment are not considered while closing F&O positions on T+1 basis due to margin shortfall.

c. Intra-day Positions:

ACML shall have right to close out any intra-day positions taken by the client after a defined "Cut-off" time (Presently 20 minutes before close of market).

d. General:

- i. While selling the securities/ closing the clients positions, ACML may take into account the sales made by the client, positions closed by the client or collections received from the client till a cut-off time (presently 12.45pm).
- ii. While selling the securities/ closing the clients positions, ACML may not take into consideration Cheques/Bank drafts/Pay orders deposited by the client with ACML until clear proceeds of such instruments are received by ACML in its bank account.
- iii. ACML shall have the right to sell client's securities or close out client's open positions but it shall not be under any obligations to undertake this exercise compulsorily. ACML shall therefore not be under any obligation to compensate/ or provide reasons of any delay or omission on its part to sell client's securities or close open positions of the client.

F. Shortages in obligations arising out of internal netting of trades,

ACML shall have the right to adopt a policy of its choice for internal auctions arising out of internal netting of trades and charge to defaulter seller and compensate the impacted purchaser as per the policy. The current procedure for internal auction may be amended from time to time with prospective effect.

- ii. Where the "open" positions in a contract exceed or are close to market wide cut-off limits
- iii. Where the client's position is close to client-wise permissible "open" positions

d. INTRA-DAY:

Clients will not be able to place intra-day orders after **a cut-off time fixed by ACML. (Presently 20 minutes prior to close of market)**

Event Based: Where based on happening of an event, ACML has the risk perception that further trading in the securities/ contracts may not be in the interest of its clients and/or the market.

Policy regarding treatment of inactive accounts

ASE Capital Markets Ltd. prescribes the following policy regarding treatment of inactive accounts which inter-alia, covers aspects of time period, return of client assets and procedure for reactivation of the same. This policy is displayed on the web site, www.acml.in and shall be subject to any change from time to time in future and would be applicable to sub brokers, authorized persons and all clients of the company

If there is no transaction by the Client in its trading account opened and maintained with ACML, for a period of one year and more, Such account may be classified as 'inactive' in the ACML systems. It may be noted that system generated debits (like charges, debit interest etc) are not considered as 'transaction' for classifying an account as active or inactive.

As a result of the client account being classified as 'inactive', the Client may not be able to operate his account through our sub brokers / authorized persons during the time that it remains 'inactive' on our systems.

To avoid this scenario, the Client should effect a transaction from his account by dealing in the market through ACML sub broker / authorized person, at least once a year so that your account remains active at all times.

If the client account goes into the 'inactive' state, Client needs to follow the below-mentioned procedure to reactivate it.

Procedure for reactivation - If the account has been 'inactive' for less than TWO years

If the client account has become inactive, as elucidated above, but it has been less than two years since the last transaction, the client can reactivate his account through any one of the following options:

1. In case the client has other accounts which are active (with 'Either or Survivor' mandate in case of joint accounts), the client can send the ACML a secure message through his sub broker / authorized person, to execute the transaction for selling or buying the securities through his account.
2. NRI customers can also submit a written request by a mail/courier through his sub broker / authorized person, to execute the transaction for sale or buy the securities.

ASE CAPITAL MARKETS LTD.
